

Kevin Connolly

UX / PRODUCT DESIGNER

kevin@kcon.design | www.kcon.design
linkedin.com/in/kcon | github.com/kcon-design

UX/UI designer with experience across mobile, web, application prototyping, product design, digital marketing, and AI-assisted builds. I bring a hands-on maker mindset to design work: research the problem, prototype quickly, polish the experience, and ship useful things.

EXPERIENCE

Founder / Product Designer - Printing Castle LLC

2025 - Present

- Built a 3D printing shop from first printer to 900+ Etsy sales, a 4.9-star rating, and nearly 200 customer reviews in its first year.
- Grew monthly shop revenue from \$1.5k in month one to \$8k, then \$22.5k during a lightstick product launch by identifying fan demand early, using ChatGPT-assisted technical research, and shipping a functioning LED version ahead of competing prop-only listings.
- Used ChatGPT, Bambu Studio, MakerWorld, and rapid prototyping to learn 3D printing, product iteration, LED wiring, packaging, and fulfillment workflows from scratch.
- Manage product photography, storefront positioning, customer support, daily fulfillment, quality control, and new product exploration while balancing speed, quality, and customer expectations.

UX/UI Specialist - Next Horizon

Full-Time Role | Jan 2023 - Oct 2023

- Created UI/UX prototypes and visual design deliverables for mobile, web, and application experiences.
- Supported general graphic design, product design, white paper design, and related design activities across client and internal initiatives.
- Managed SEO/SEM work including paid and organic traffic, analytics/reporting, social posting, and digital marketing activities, connecting design decisions to measurable acquisition and engagement goals.

UX/UI Design Intern - Pulse Protocol

Internship | Jan 2022 - Mar 2022

- Reported to the Head of Product and Lead UX Designer while completing design deliverables in a product team environment.
- Participated regularly with development, admin, customer success, and marketing teams to support product design workflows, clarify requirements, and keep deliverables moving across departments.

UX / UI Designer - Freelance & Personal Projects

2021 - Present

- Redesigned the LA Fitness mobile app as a UX case study after auditing a 2.2/5 App Store rating and 2.5k+ ratings; addressed navigation, check-in, class booking, and club discovery through wireframes and a high-fidelity Adobe XD prototype.
- Performed a high-fidelity mobile redesign for an essential oils app, focused on creating a fresher, more engaging experience while keeping the product useful for a broad age range. Client reported a 64% download increase after launch.

HIGHLIGHTS

900+

Etsy sales in year one

4.9

shop rating

6+

years UX / product design
